NOTICE

On Wednesday, November 30, 2011, at 10:00 A.M., in Spector Hall, at the Department of City Planning, 22 Reade Street, in Lower Manhattan, a public hearing is being held by the City Planning Commission in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning a zoning map amendment and zoning text amendments as well as special permits for a large-scale general development project (LSGD). The zoning map amendment would rezone the block between West 11th and 12th Streets east of Seventh Avenue from C2-6 to C6-2 for the portion within 100 feet of Seventh Avenue and rezone the adjacent midblock portion from R6 and C1-6 to R8. The zoning text amendments would permit the floor area ratio available for certain LSGDs within Manhattan Community District 2 to be used without regard to height factor or open space ratio requirements and allow for a reduction in open space requirements for appropriate open space with superior landscaping. The applicant is also requesting special permits under ZR Sections 74-743, 74-744, and 13-561 to waive certain bulk and open space requirements for their LSGD and to permit an accessory parking garage on their site. The proposed actions would facilitate a proposal by the applicant, RSV, LLC, to redevelop a vacant former retail and support buildings for residential use with hospital and medical office uses on the lower floors of the buildings along Seventh Avenue, an accessory parking garage with approximately 152 spaces, and an approximate 15,100-square-foot publicly accessible open space. Comments are requested on the DEIS and will be accepted until Monday, December 12, 2011.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 10DCP003M.

### Statement of Basis and Purpose of Proposed Rule

The Environmental Control Board proposes to amend its Department of Buildings (DOB) Penalty Schedule. This schedule is found in Section 3-103 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York (RCNY).

This amendment will create penalties for violations of provisions of the New York City Electrical Code as amended by Local Law 39 of 2011. Local Law 39 of 2011 amends Section 27-3021.2 of the New York City Administrative Code ("Administrative Code") to provide that persons or businesses who violate provisions of the New York City Electrical Code will be subject to penalties in accordance with Chapter 2 of Title 28 of the Administrative Code. The portion of Local Law 39 of 2011 amending Section 27-3021.2 will become effective March 1, 2012.

Local Law 39 of 2011 also continues the process of ensuring that the New York City Electrical Code is regularly updated to recognize and reflect important technical advancements in technology, materials and industry standards in order to create and maintain safe practices for electrical work in New York City.

The New York City Electrical Code is contained in Chapter 3 of Title 27 of the Administrative Code. Chapter 3 is divided into two subchapters:

- Subchapter 1, comprised of Sections 27-3001 through 27-3021.2, sets forth administrative requirements.
- Subchapter 2, comprised of Sections 27-3024 and 27-3025, sets forth technical requirements.
  - Section 27-3024 incorporates the National Fire Protection Association's NFPA 70 National Electrical Code (also known as the "National Electrical Code").
  - Section 27-3025 contains New York City-specific amendments to the National Electrical Code.
  - These sections are collectively known as the "Electrical Code Technical Standards," abbreviated as "EC" in the penalty schedule.

The main amendments to the administrative requirements of the New York City Electrical Code relate to:

- Licensees' business requirements;
- Enforcement provisions; and
- Disciplinary actions.

The main amendments to the Electrical Code Technical Standards relate to installations for the transmission of electricity for light, heat, power, signaling, communication, and alarm and data transmission.

The amendments also give the Buildings Commissioner certain rulemaking authority.

In Section 102-01 of Subchapter B of Chapter 100 of Title 1 of the RCNY, the Department of Buildings assigned a classification to each violation based on its seriousness. The classifications are summarized below:

- 1) Immediately Hazardous Violation (Class 1):** Where the condition poses an immediately hazardous threat that severely affects life, health, safety, property, or the public interest, so as to warrant immediate corrective action.
- 2) Major Violation (Class 2):** Where the condition poses a threat that affects life, health, safety, property, or the public interest but does not warrant immediate corrective action.
- 3) Lesser Violation (Class 3):** Where the condition is neither an immediately hazardous nor a major violation.

Penalties set forth in this proposed rule are determined according to the specific violation and its classification. Where there is more than one severity classification for a single violation, the issuing officer will determine which severity classification to charge based on the condition observed.

These new provisions apply to work being performed on or after July 1, 2011. Local Law 39 provides for a six-month phase-in period during which the technical standards of the old or the new Codes may be used.

New matter is underlined.

Section 1. The Environmental Control Board is amending its DOB Penalty Schedule found in Section 3-103 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York (RCNY) to change the column headings above the violation "1 RCNY-Misc, RS-Misc B179 Class 1 Miscellaneous violations." to read as follows:

Section 2. The Environmental Control Board is amending its DOB Penalty Schedule found in Section 3-103 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York (RCNY) to add the following 9 violations after the violations "27-972(h) & BC 907.2.12.3, Failure to install an acceptable two-way voice communication system with central station connection":

Section 3. The Environmental Control Board is amending its DOB Penalty Schedule found in Section 3-103 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York (RCNY) to add the following 42 violations after the violation "BC3319.8.8, Erection, jumping, climbing, dismantling operations of a tower or climber crane not in accordance with 3319.8.8":

Notice of Promulgation of Rule

**NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED** in the Environmental Control Board by Section 1049-a of the New York City Charter, and in accordance with Section 1043(b) of the Charter, that the Environmental Control Board hereby promulgates the following rule. The rule was published in The City Record on October 5, 2011 and a Public Hearing was held on November 9, 2011.

**Statement of Basis and Purpose of Final Rule**

The Environmental Control Board held a Public Hearing on November 9, 2011 regarding amendments to amend its Department of Buildings (DOB) Penalty Schedule. This schedule is found in Section 3-103 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York (RCNY). Neither written comments nor oral testimony were presented at the November 9, 2011 Public Hearing.

Section 28-105.1 of the New York City Administrative Code prohibits certain construction work without a permit. DOB issues a violation when construction work is found to be ongoing and the permit has expired. Currently, DOB also issues a violation under this section of law whenever temporary construction equipment is found on a work site and the permit has expired.

However, the Administrative Code contains a more appropriate section of law, 105.8.2. Section 105.8.2 specifically states when construction equipment is at a work site, the work permit must be in effect at all times. This would apply to sites where work is ongoing. It would also apply to sites where work has stopped but the temporary construction equipment is still on the site. Temporary construction equipment includes such items as fences, sidewalk sheds, scaffolds, temporary railings and catch platforms.

ECB has amended its penalty schedule to reference a more specific section of the Administrative Code 105.8.2. This will direct the public to a more appropriate section of the law for this violation. The amount of the penalty has not been changed.

**Section 1. The Environmental Control Board has amended its DOB Penalty Schedule found in Section 3-103 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York (RCNY) to make the following change:**

Notice of Promulgation of Rule

**NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED** in the Environmental Control Board by Section 1049-a of the New York City Charter, and in accordance with Section 1043(b) of the Charter, that the Environmental Control Board hereby promulgates the following rule. The rule was published in The City Record on October 5, 2011, and a Public Hearing was held on November 9, 2011.

**Statement of Basis and Purpose of Final Rule**

The Environmental Control Board (ECB) held a Public Hearing on November 9, 2011 regarding amendment to ECB's Department of Transportation (DOT) Penalty Schedule found in Section 3-124 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York (RCNY). Neither written comments nor oral testimony were presented at the November 9, 2011 Public Hearing.

These amendments increased the fines related to emergency work by utility companies on critical roadways during restricted hours. These increases will encourage better compliance with existing rules, as detailed below. Specifically, this rule increased the fines from \$1,000 to \$2,000 for:

- Opening a utility access cover without an authorization number, and,
- Doing non-emergency work on a critical roadway during restricted hours.

**Background**

34 RCNY § 2-07 provides that utility companies may access their underground facilities on critical roadways without prior authorization during off-peak hours and on weekends. Section 2-07(c)(1) prohibits utility companies from accessing their underground facilities on critical roadways during restricted hours, except in an emergency. Section 2-01(c)(2) prohibits emergency work requiring cover or grating openings on critical roadways during specified hours without an emergency authorization number. If an emergency arises on a critical roadway during peak hours, section § 2-07(c)(4)(i) requires that the companies get an emergency authorization number from DOT prior to performing the emergency work. Section 2-01 defines "emergency" as "a situation endangering the public safety or causing or likely to cause the imminent interruption of service required by law, contract or franchise to be continuously maintained."

DOT has designated critical roadways and restricted hours based on the need for smooth traffic flow during the business day. Commonly referred to as "rush hours," these restricted hours are times when roadways are congested with commuter traffic. Interruptions to the free flow of traffic can create major traffic stalls and hazardous conditions for motorists, pedestrians and bicyclists.

**Analysis of Emergency Work Permit Requests**

Since emergency work permit requests are for emergencies only, the number of emergency permits issued should vary from year to year. DOT reviewed emergency permit data for the past six years and found that the number of emergency permits issued each year is fairly constant. DOT also found that 60 percent of the requests are sent to DOT at the beginning of the work day, between 7:00 A.M. and 10:00 A.M. In Fiscal Year 2011 DOT issued 2,700 violations for work conducted for routine maintenance using an emergency permit. Based on this data DOT concluded that the emergency permitting system is being misused and that utility companies are requesting authorization numbers for non-emergency, routine maintenance.

**Need for Increased Penalties**

The penalties associated with these violations have not changed in more than five years. In some cases, the \$1,000 penalty may be less than the expense of complying with the law; that is, companies may be choosing to work during restricted hours on critical roadways rather than incur the business cost of working outside of the regular business day. Therefore, ECB has raised the penalties for these charges to encourage utility companies to get authorization numbers when needed and to deter them from requesting emergency permits for routine maintenance. The changes increase the penalties for the two charges from \$1000 to \$2000. The default penalties will remain at \$3000.

This rule does not provide for obtaining an authorization number after the utility company has blocked traffic, or allowing companies to change or cancel a request for an authorization number after the authorization number has been given. Allowing utility companies to obtain an authorization number after the occurrence would encourage them to work without authorization until an inspection. Furthermore, if the authorization number has been

requested under false pretenses, allowing contractors to change or cancel the emergency request would promote further misuse of the emergency permitting system.

Section 1. The Environmental Control Board has amended its DOT Penalty Schedule found in Section 3-124 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York (RCNY) to read as follows:

Deleted material is in [brackets].  
 New matter is underlined.

SECTION	DESCRIPTION	Penalty	DEFAULT

Notice of Promulgation of Rule

**NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED** in the Environmental Control Board by Section 1049-a of the New York City Charter, and in accordance with Section 1043(b) of the Charter, that the Environmental Control Board hereby promulgates the following rule. The rule was published in The City Record on October 5, 2011 and a Public Hearing was held on November 9, 2011.

**Statement of Basis and Purpose of Final Rule**

The Environmental Control Board (ECB) held a Public Hearing on November 9, 2011 regarding amendments to its Water Penalty Schedule found in Section 3-126 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York. Neither written comments nor oral testimony were presented at the November 9, 2011 Public Hearing.

On June 23, 2011, the Board approved a change to the penalty for Section 20-04(e) of Title 15 of the Rules of the City of New York, "Failed to submit an annual test report for a backflow preventer." The approved change was to increase the mitigated penalty from \$0 to \$50. A penalty may be mitigated if a person charged with violating 20-04(e) hands in the required test report before the first hearing date. The change was made to meet the \$50 minimum penalty required by Section 24-346(b) of the New York City Administrative Code. The note that precedes the penalty schedule has been changed to reflect the new mitigated penalty and a prior change of full penalty by a rule that became effective on January 22, 2010. The prior change raised the full penalty from \$350 to \$500.

New matter in the following rule is underlined.  
 Deleted material is in [brackets]

Section 1. The Water Penalty Schedule found in Section 3-126 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York is amended to revise the headnote to read as follows:

**WATER PENALTY SCHEDULE**

All citations preceded by "A.C." are to the New York City Administrative Code. All other citations are to Title 15 of the Rules of the City of New York.

\*If a respondent charged with a violation of 20-04(e) submits the annual test report by the first hearing date, the penalty will be mitigated from [\$350] \$500 to [\$0 (zero)] \$50. [The] For 20-04(e), the possibility of such mitigation exists only in connection with the first NOV issued to a given respondent [for 20-04(e) charge].

**BUILDINGS**

**NOTICE**

**REQUEST FOR EXPRESSIONS OF INTEREST**

The Department of Buildings and NYC Service jointly manage the NYC CoolRoofs program. The program's goals are to reduce cooling costs, cut energy usage and lower greenhouse gas emissions by facilitating the application of reflective roof coatings.

The program has two operational components:

1. Program administration: Identification, inspection and evaluation of roofs for inclusion in the program based on safety, ease of accesses and availability of needed resources; oversee volunteers and other staff during the application of coating; manage the ordering of proper supplies.
2. Outreach: recruit volunteers to help coat roofs and building owners to participate by having their roofs painted.

Organizations capable and interested in performing one or both program components should so indicate, in writing, by November 30th, to:

Leesel A. Wong  
NYC Department of Buildings  
280 Broadway, 6th Floor  
New York, NY 10007
