## APPENDICES

Appendices are numbered to correspond with the analyses conducted for the Environmental Impact Statement; e.g., throughout the document, all air quality Sections are x.11, where 'x' represents the Chapter number and 11 is the consistent Section number for all Air Quality Sections. Therefore, the Air Quality Appendix is Appendix 11. Some analysis areas do not have an appendix. Following is a Table of Contents for the appendices for the proposed Shaft 33B to City Water Tunnel No. 3 Manhattan Leg—Stage 2 project.

<b>Appendix 1:</b>	<b>Site Screening*</b>
