

Transitioning to Retirement

Looking Forward:

A workshop for FDNY Members
New to & Contemplating Retirement

There are Many Challenges in Leaving a Job You Love

Most FDNY retirees focus only on the \$\$\$ when planning for retirement leaving aside other important questions such as:

Who am I if I am not a firefighter?

What will change at home?

How will I spend my time?

Why think about this now?

Many studies have shown that nearly 1/3 of all retirees experience difficulty with the transition to retirement.

In fact – the more involved people were in their work the more difficulty they often experience.
