## **INSTRUCTIONS FOR OBTAINING A LETTER OF APPROVAL**

### **LETTER OF DEFECT**

You must correct the issued defects. You may request reconsideration of any application of code concerning a cited item of defect. (See Below)

### **CERTIFICATION OF CORRECTION OF DEFECTS**

Have a Registered Architect, Professional Engineer, or Licensed Electrical Contractor fill out the "Certification of Correction of Electrical Defects" form in entirety and return it notarized to the Bureau of Fire Prevention, Fire Alarm Inspection Unit, 9 Metro Tech Center, Brooklyn NY 11201-5884.

A copy of this form may be submitted for defects being certified by additional authorized professionals.

The Letter of Defect is no longer eligible for self-certification after 90 days. A request for re-inspection must be submitted with the B-45 form and the A-433 form when required. Failure to submit these forms after 90 days may result in the issuance of a Violation Order.

Please provide a self-addressed stamped envelope for return of the Letter of Approval.

### **REQUEST FOR RECONSIDERATION**

Submit a separate form for each defect for which you are requesting reconsideration accompanied by a self addressed stamped envelope.

The Request may be submitted by the owner or designated representative. Reconsideration of a defect will be issued only on application of code.

This form can be reproduced for your use, and may be submitted with your "Certification of Defect" form.

If reconsideration is not granted, all of the defects must be certified in order to obtain the Letter of Approval.

### **LETTER OF APPROVAL**

After acceptance of the "Certification of Correction", the owner will be sent a Letter of Approval. Additionally, the professional who certified the system will be sent a copy of the Letter of Approval in the self-addressed, stamped envelope provided.

All required fees must be paid prior to Letter of Approval issuance.
