Re: Mark N. Foggin - Loft Board Manufacturing Representative

I am pleased to announce that Mayor Bloomberg has appointed Mark N. Foggin as the Manufacturing Representative to the Loft Board.

Mr. Foggin brings a broad range of public service and private sector experience to the Loft Board. He is currently a management consultant with Public Works Consulting, LLC, where he works with a range of clients in the public and nonprofit sectors on strategic planning, performance management and program design. In one recent project he designed and implemented a program of business education, executive mentorship and professional support services for 500 small business owners in underserved communities in NYC.

Prior to beginning his consulting work, Mr. Foggin served as the Deputy Director of the Mayor's Office of Industrial & Manufacturing Business where he launched and managed initiatives to diversify NYC's economy by stabilizing its industrial job base. Mr. Foggin also coordinated with city agencies to maximize assistance for industrial firms and served in several roles at the NYC Department of Health coordinating public health projects with different city agencies for more than six years.

Mr. Foggin earned his Masters of Public Administration from New York University's Robert F Wagner Graduate School for Public Service and his Bachelor of Arts from Hunter College.

Please join me in welcoming Mr. Foggin to the Loft Board.
