The Paralympic Experience

The Paralympic Experience is an excellent way to introduce Paralympic sports to people with disabilities. The goal of the program is to show individuals with a physical disability how participation in sport and living a healthy, active lifestyle can have a profoundly positive impact on their lives.

Row New York, NYC Parks and Recreation, and North Jersey Navigators are proud to announce their collaboration with BP. Come out and learn more about sports for the disabled and have the opportunity to work with experienced coaches in track, field, archery and rowing. This event is designed for individuals with a physical disability ages 7 and up.
