

Green Team Fact Sheet

NYCDEP Demolition Registration

Overview

Purpose: An applicant must register with the New York City Department of Environmental Protection (NYCDEP) for every demolition job. In addition, a Construction Noise Mitigation Plan for operating equipment that can cause noise impact on the surrounding environment and a Dust Mitigation Plan for operating equipment that is capable of causing or permitting dust into the atmosphere during work activities should be prepared.

Prerequisites:

1. New York City Department of Buildings (NYCDOB) Demolition Permit No.
2. New York City Department of Transportation (NYCDOT) Permit No.
3. Completion of any asbestos abatement activities.

Submission Process:

1. For external demolition projects, submit a Registration for Demolition form to the NYCDEP Bureau of Environmental Compliance (BEC) along with a check payable to the NYCDEP either in person or by mail.
2. Prepare, sign, and notarize the Noise and Dust Mitigation Plan.
3. Neither the Noise nor the Dust Mitigation Plan is necessary to be filed with the NYCDEP, however; they must be maintained at the job site for inspection.

Fee: Multiply the street frontage in feet by the number of stories of the building and by \$0.25, provided that the minimum fee is not less than \$250. Wherever a building should have frontage on more than one street, the longer frontage should be used in the fee calculation.

Permit Timeline: Approval of the Registration for Demolition can be completed within two weeks.

Office Hours

Office Hours: The Registration for Demolition and fee can be submitted to the BEC, which is located at the NYCDEP, 59-17 Junction Boulevard, 9th Floor, Flushing, NY 11373. The office is open from 8 am to 4 pm.
