Harold Kozak announced the agenda for the May 4 Committee Meeting will be a workshop sponsored by him and Verna Lauria on preparing for college. This will be open to current high school sophomores and juniors.

The Committee discussed how to retain good teachers and remove those who are not doing their job. One suggestion is to remove those New York City teachers presently in the rubber room. In addition, parents must take more responsibility to have their children attend school and behave in the classroom.

**Meeting adjourned 8:30 p.m.**

**Respectfully submitted,**

*Harold Kozak*
